

Maciej Mazur

President of the Management Board and founder of the Polish Association of Alternative Fuels. Business practitioner with many years of experience in the energy sector.

Since 2012, he has been working in the alternative fuels industry, in particular in the e-mobility and natural gas sectors. He has worked, among others, on the implementation of the largest infrastructural projects carried out in Poland (including the construction of a liquefied natural gas terminal) and advised companies from the fuel, automotive and financial.

He is a practitioner in the field of implementation of corporate communication strategies and has extensive experience in the area of media relations and public affairs.

Graduated in International Relations from the Faculty of International Trade Policy at the University of Warsaw. He also holds an MBA diploma.

He is currently working on his doctorate in economics. Author of numerous publications in the field of energy and public communication. Speaker at numerous industry debates and conferences.
